Along the way, your knowledgeable guide will share you with stories of locals and their deep relationship with the reindeer - the importance of reindeer herding and the role these majestic animals play in sustaining livelihoods in the Arctic.

### **Evening: Northern Lights Snowmobile Safari (3 hours / 3km)**

Driving through the Lappish forest during the nighttime is an experience of its own. Our route winds through untamed wilderness, leading us to the shores of Lake Äkäsjärvi and the historic mill beside the

Äkäsjoki River. This ancient site holds a special place in the region's history, serving as both a vital area for fishing and a peaceful resting spot for travellers throughout the ages. Here, under the Arctic night, there is plenty of time to roam in search for the Northern Lights. While you enjoy a Lappish evening snack, your guide will tell tales of the ancient traditions and spiritual beliefs of the Sámi people, alongside shedding light on the scientific explanation of this light phenomenon.
